Foreword

A little over a year ago a group of men, stern and fear-ridden, sat down together around a curved table and obliged themselves with the survival of the world. These austere men, trying to develop among nations the same system of law and order that usually prevails in a civilized, human community, represented mankind.

On October 23, 1946, the second of a series of great meetings convened, the assembly of the United Nations in the New York City Building on Long Island. More than two-thirds of all the people on earth were represented. The delegates were gathered there because the men and women of fifty-one nations who had sent them, urged that there be a peaceful way of living together instead of dying enmasse.

You read about them and the assembly. You wondered, hoped, and asked questions—in the classroom, across the dinner table, at the milk bar—questions that no one could answer. Would this new and necessary council work? How soon?

If you, Mr. U. N. Delegate, visit Central, you might find the answer. You will realize that she is somewhat related to your council. Gathered within her portals are international representatives (students), from forty-seven different parishes. You would see her union working and making progress. Note the reason as outlined on her shield. Students of C.C.H.S., often called the "Fighting Irish", as the Celtic Cross designates, come from many parishes in the city, as the petals merging into the castle, the coat-of-arms of the Toledo dioceses, depict. They (the students), directed by a varied but coordinated staff, work, study and play together under the banner of Christ the King—God has not been left out of her theme as He has been deliberately barred from the UN Council.

Follow us, Mr. Delegate, as we disclose how her UN (CCHS) functions. A little over nineteen years ago—

Dedication

His Eminence Cardinal Samuel A. Stritch saw the need of a high school for all Catholic boys and girls of Toledo . . . a high school directed, not by one teaching order but by teachers of all the various orders in the city . . . a high school which would imbue its students with a spirit (which Central's first principal, Msgr. A. J. Sawkins said, would be) "deeper than loyalty, stronger than fidelity, loftier than patriotism, yet embracing and sublimating them all; a spirit binding students and staff into unity with strands of steel; a spirit as ancient as the martyrs and more lasting than the mountains; the spirit of Faith, one, holy, Catholic, apostolic."

His brilliant foresight making clear to him the necessity of such an institution, the Cardinal worked with unlimited fortitude and zeal to make his ardent desire materialize. On March 5, 1928, he turned the first spade full of ground for the new C.C.H.S.

Today 2,000 boys and girls are participating in the results of his labors. They know he has taken a personal pride in watching his school (Central Catholic High) develop in the principles he had in mind nineteen years ago.

As the year of the Cardinal's silver jubilee as bishop nears its consummation, the Graduates of 1947, in sincere gratitude dedicate this book to him. And they ask you, Mr. U. N. Delegate, to follow them through the year's work, study, and play.

Chemistry

Chemistry . . . the producer of things once considered impossible . . . now conceivable . . . is the queen of the sciences. Students are taught the fundamentals of organic and inorganic chemistry. Experiment days . . . twice a week . . . provide the means for practical application of principles learned. Topics on up to date subjects . . . plastics . . . Aeronautics

An air age produces air minded students. A course in aeronautics was instituted at Central five years ago; air navigation, meteorology and Civil Air Regulations are treated in the course, Upon successful completion of the course class members may take the test given by the Civil Aeronautics Administration. The names of those passing are recorded in Washington. If within one year, after successfully taking the test, actual flying is taken up, by the student . . . the ground course in flying is eliminated.

Mechanical Drawing

Mechanical Drawing and Surveying give thorough training in the technique of the exact science of the various fields of engineering and requires years of preparation and application of principles. Only then will society profit by the fruit of labor. The ingenuity of man in producing an indefinite variety of useful instruments will afford man more time to be devoted to the perfection of his mind.

To prepare the engineer for tomorrow is the aim of the Drafting Department. Tomorrow holds many secrets—their discovery beckons the student of engineering to pioneer in advanced fields whos paths are unchartered. Here he must know how to think (the function of education), because his only guides are the principles he has already mastered. What he will be on some future day will be due to what he already is.

Graduate draftsmen from Central are equipped with all they need to enable them to apply for and retain a position in any drafting office.

The present junior and sophomore classes are detailing and assembling a nine cylinder Lycoming Airplane motor, while the senior group is mastering the fundamentals of civil engineering.

ORGANIZATIONS

Young Christian Students

The Y. C. S. is endeavoring to implant in the student body a fuller realization of their duties as students. First, the members must perfect their own lives, and then must assist the other students in perfecting theirs.

The Eucharistic Marian Committee

Striving to increase loyalty and love for Christ and His Blessed Mother, the Eucharistic Marian Committee's first undertaking of the year was acquainting the student body with Our Lady of Fatima and promoting devotion to her. The committee also sponsors other spiritual activities such as the reciting of the Rosary during October and May, and crowning Mary, Queen of the Angels, Queen of the May, and Queen of Central, during the annual May Convocation.

THE HOPE OF TH NS.

The Apostolic Committee

Great interest in home and foreign missions is encouraged by the Apostolic Committee. The sale of Christmas cards and seals, the ransom of pagan babies, the Lenten Sacrifice Drive, combined with the Bishop's Relief Fund, constitute the work of this committee.

The St. John Berchmans Sanctuary Society

The St. John Berchmans Sanctuary Society gives the acolytes an opportunity to serve Mass and Benediction at Central throughout the year. The principal purpose of the organization is to promote religious vocations, especially through daily talks over the P.A. during Vocation Week. Together with the Eucharistic-Marian committee it sponsors the annual May Convocation.

Catholic Literature Committee

The purpose of the Catholic Literature Committee is to interest the student body in good books and magazines.

A list of these books was compiled at the beginning of the year to give the student an idea of the reading material that may be obtained in Central's library.

Talks in the English classes, a display in the lobby during Catholic Book Week, and an assembly highlighted the year.

St. Hilda Guild

The St. Hilda Guild, which is composed of the girl art students, is a unit of the Student Spiritual Council. In this society the girls prepare the sanctuary for Mass, lay out the vestments for the priest, and keep the altar linens in the best of condition.

The Student Council, composed of students approved by the faculty and elected by fellow students, is known as the representative organization of the school. Its chief function is to formulate plans for the direction of student policies and to build up student ideals. The above picture shows a few of the functions over which the Council members preside.

Glee Club

One hundred and six students . . . having a mutual appreciation for music . . . and a desire to develop their singing voice . . . comprise this year's Glee Club.

Besides presenting several musical assemblies . . . including the traditional Christmas assembly . . . caroling in hospitals and convents . . . entertaining parents on P.T.A. day . . . presenting the annual May Concert . . . the Glee Club climaxed the 1947 musical events by the presentation of Gilbert & Sullivan's "Pirates of Penzance."

Al-Geo-Trig

Seniors majoring in mathematics edit a quarterly paper . . . the Al-Geo-Trig . . . published by co-editors . . . aided by a selected staff . . . under direction of faculty advisor. The year 1947 marked the tenth anniversary of the paper which started as a mimeographed copy and rose to a four page issue. Stimulating interest in math . . . appreciation of its application are aims of the paper.

Camera Club

This club is devoted primarily to the study of photo display, camera technique and movie stills. Lectures and movies which portray this technique provide the material for the meetings.

The officers this year were:
President: Gerald Langenderfer.
Vice-president: Patricia Kosmider.
Secretary: Dolores Zilka.
Treasurer: Leo Kreft.

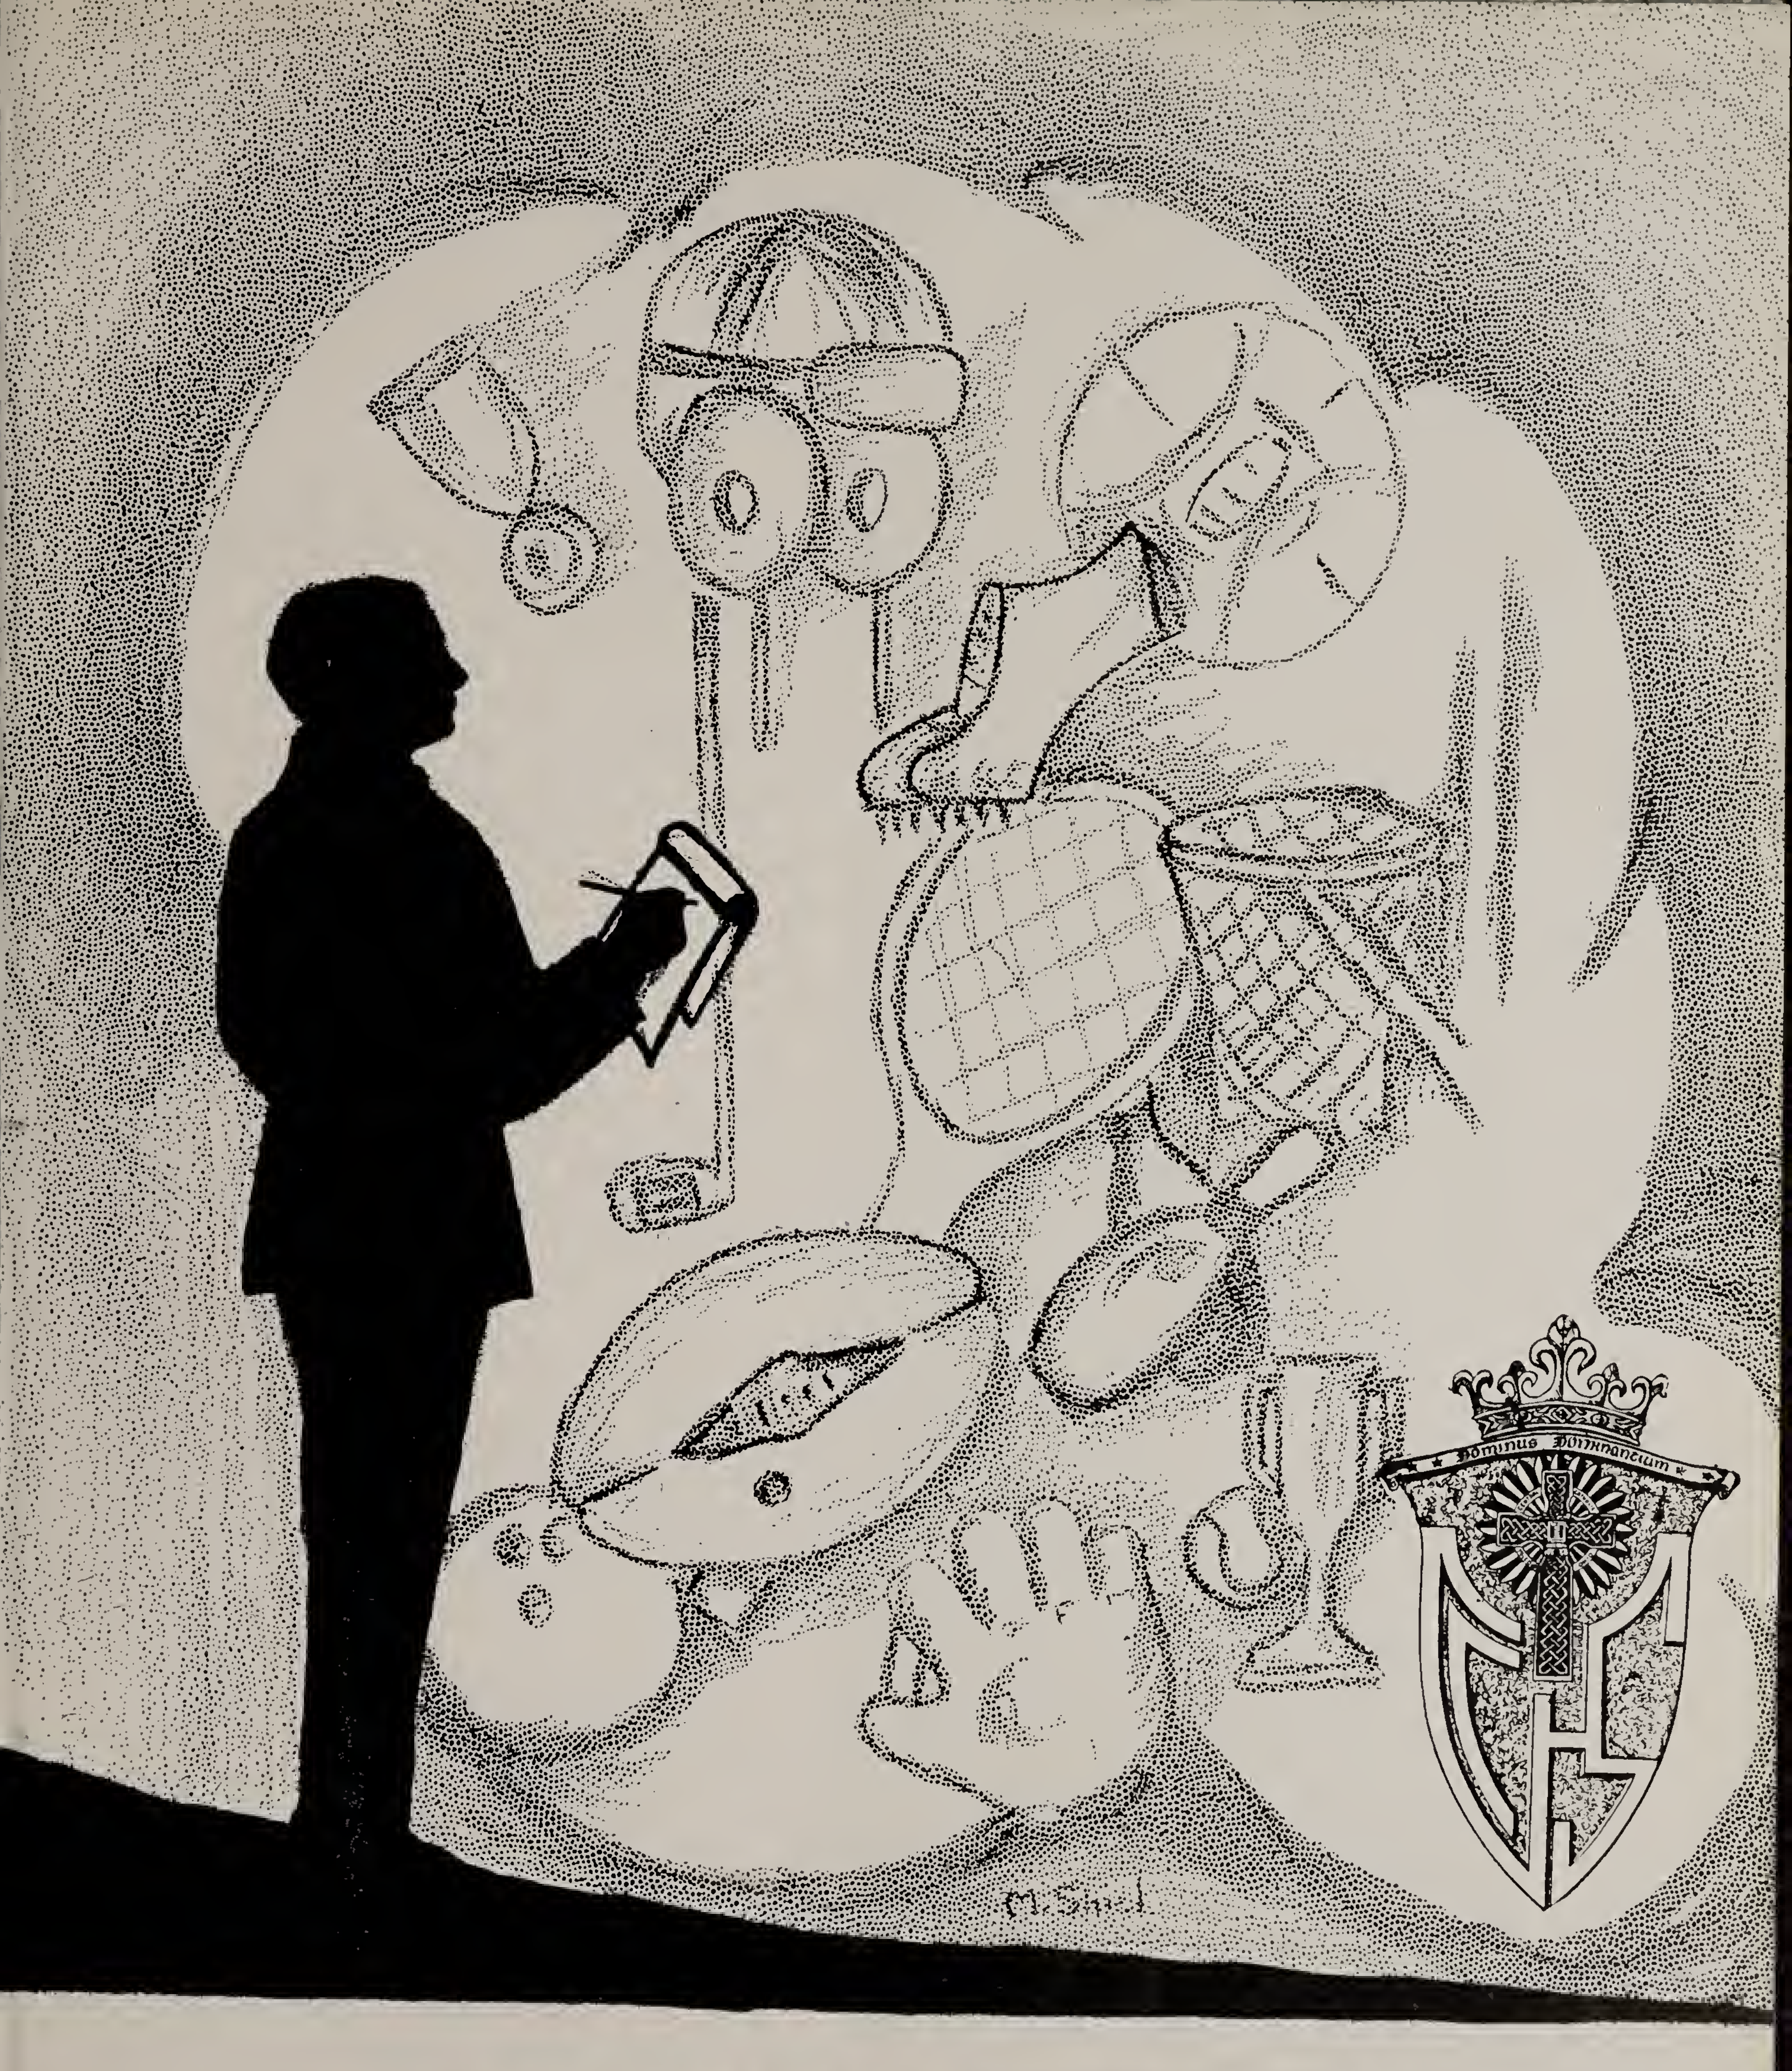
Micro-Scoop

This science publication contains short, current, scientific articles of interest to chemistry students. These articles are contributed by all chemistry classes and mimeographed by the seventh and eighth period class. Editor: William VanderHorst; Co-Editor: John Kranz.



Dominus Dominantium

ATHLETICS

Richard Anderson

In his first year on the varsity, Dick was a powerful defensive player who almost overshadowed his own great blocking ability.

Charles Bialorucki

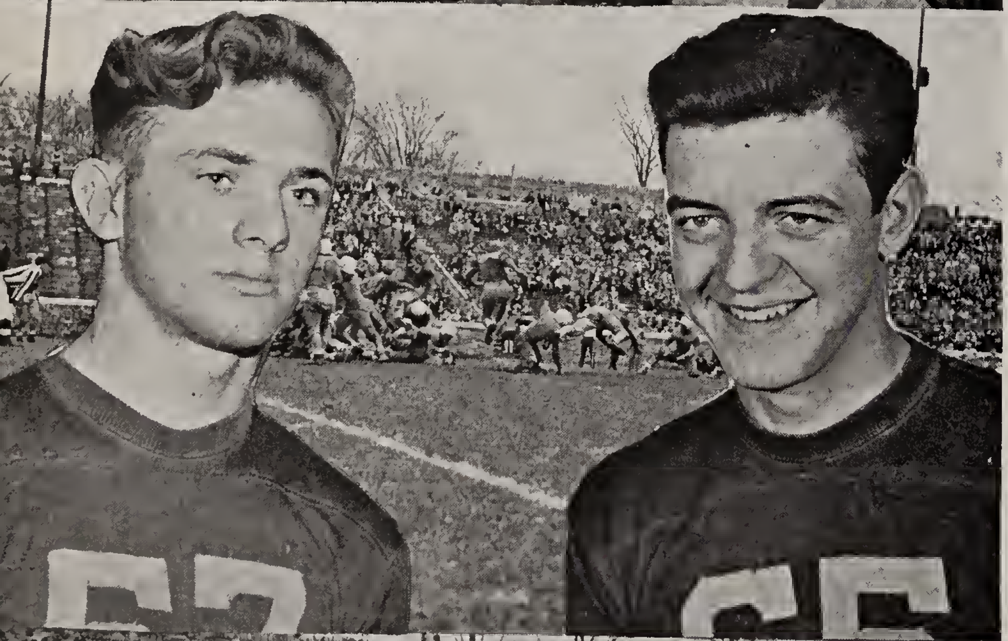
Although small in stature, Chuck proved to be a valuable man in a pinch. He was without a doubt a most able field general.

Eugene Bohland

Much may be said about our all-city captain without exaggeration. If ever a tackle position was superably covered for, it was by our left tackle, Eenie.

Henry Coyle

Hank is one of the fastest and most aggressive halfbacks that ever donned the scarlet and gray.



James Hays

It was his sensational broken field running that won for him a great name in high school football. His continued hard play and will to win earned him "the most valuable player award".

Vincent Heintschel

There never was a harder hitting line-man on a Central team. Vince could stop any opposition tossed his way.

Robert Kulczak

Bob was proficient in picking out holes in the enemy lines and in taking advantage of them when they materialized.

Thomas McNamee

Here is a true fighting Irishman from the word go. Mac played end on the varsity for two years and could always hold his own, whatever the odds.

Robert Mortimer

Because of his fine ability as a pulling guard and a good blocker, Bob gained his position on the starting eleven.

Wayne Seibert

Wayne's size didn't hamper his playing. He could always be relied on to hold his own against opponents twice his size.

Paul Serke

Paul was always good for those extra few yards when badly needed. His great line smashing plunges were a threat to every team.

George Stokes

A man whose brilliant line play proved to the Central fans that he was a staunch supporter of the Irish cause.

Charles Struffolino

An accurate center with plenty of endurance, his stellar play always made him an Irish threat.

Thomas Wendt

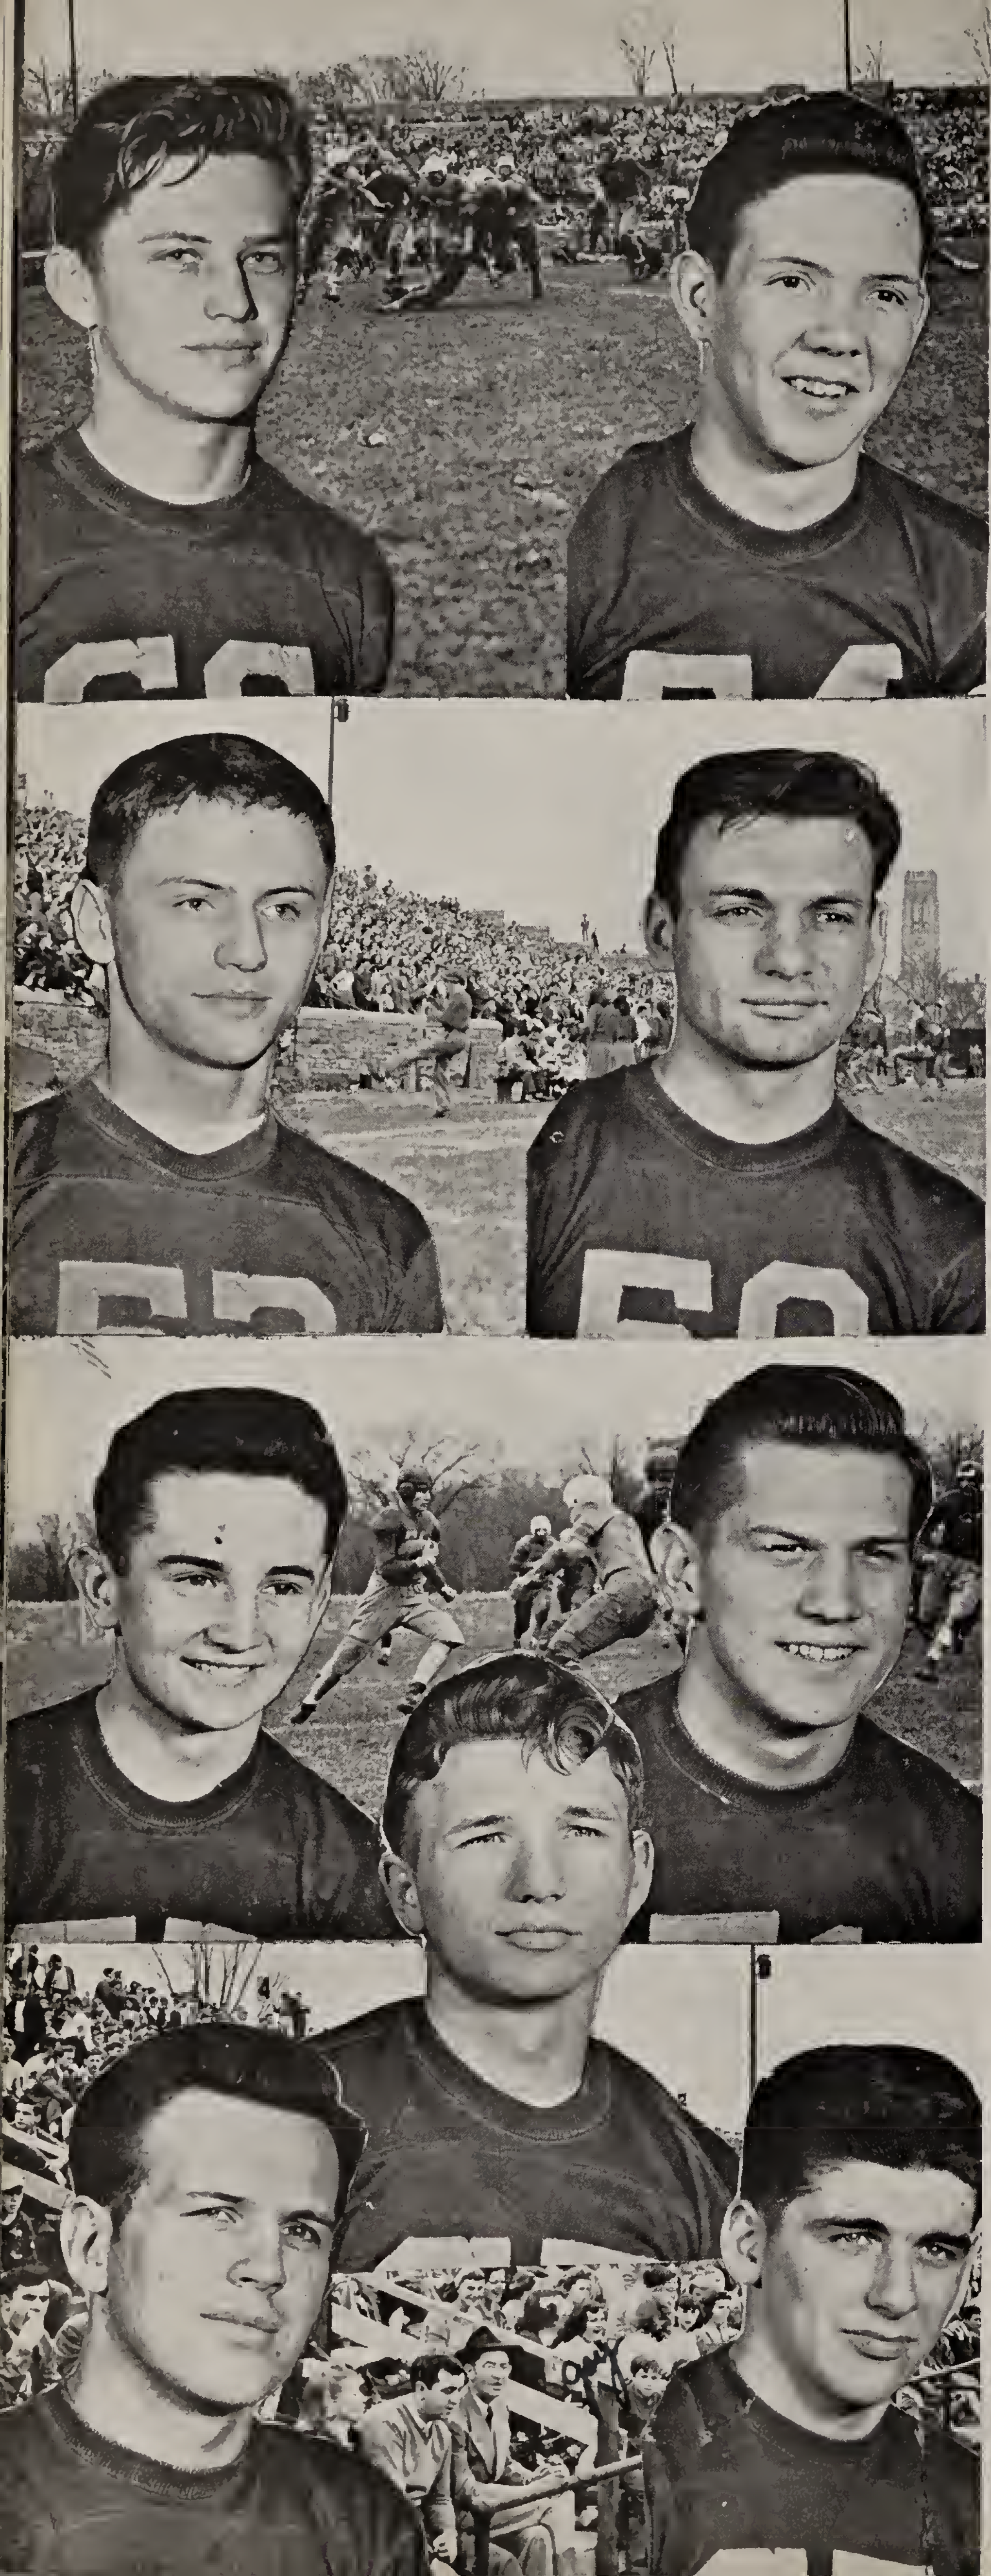
An aggressive football player always in there to win. His size was always an asset on the gridiron.

Richard Zakrzewski

Breaking through impassable barriers was Zak's specialty. His educated toe brought the Irish out of many tight squeezes.

Robert Ziemkiewicz

Bob's defensive play and his ability to out-guess his opponent was of great value to the team.



Albert Ball

Al was handicapped by lack of weight, but always gave his best. His desire to win made him an outstanding player.

Arthur Bernhardt

Art had a firm and persuasive way of dealing with anybody who attempted to slip through his part of the line.

Robert Braun

Bob is one of the finest pass-snatchers on the varsity team. He will be back helping the Scarlet and Gray next year.

Donald Burnett

Knowing that being ready and willing made a team click, Don was just that. He gave his assistance whenever needed.

James Garvin

Jim's shifty, fast, elusive type of running enabled him to make large gains. He'll be back next year.

James Gasiorowski

He is of that fighting, "never say die" spirit. He was aggressive on the offense and a power on defense, outplaying every man pitted against him.

Jack Gilmore

A great asset to the team, this able lad moved up to varsity at the beginning of the season to play in the quarter back position.

Phillip Grote

Phil really came into his own this year. He used his weight to stop all opposition. We can expect big things of him next year.

James Heintschel

Jim really came into his own this year. Our expectations are big for him next year.

Arnold Graybark

Arnold, a valuable player, will be in there fighting for the team and Central next year.

Thomas Kuebler

Although it was Tom's first year on the squad, he has the makings of a future stellar performer in the position of pilot.

James McGurk

James moved up to varsity this year. The work of this junior will be seen in the early games next season.

Jerry McCloskey

One of the most promising of all the players, Jerry was outstanding in catching passes and receiving punts.

Eugene Owczarzak

There are no complaints against Gene, who fought every minute for his team. Not many plays of the opposing team got through this excellent player's position.

Arthur Pietrykowski

His determination to win and ability to play the game makes Art a big factor in the Irish line-up.

Paul Ray

Paul is one of those players who works hard all the time, never saying anything of his own ability.

Joseph Thomas

Behind Joe's amiable countenance, there is an ability for hard playing that makes the opposing backs wary of coming through his position. We will be hearing from him next year.

Stephen Wilhelm

Although he was only a Junior, Steve made a great place for himself on this year's varsity.

Duane Wisniewski

Duane excelled in the art of punting and was especially good at booting them out of bounds. He also gained special renown for his distance passing.

Coaches

Mr. Lawrence Bondy
(B.A., B.S.E.)
Physical Education
Director Athletics

Taking over the duties of head football coach in the middle of the football season, Mr. Bondy brought the team to a successful finish.

A graduate of Central and De Sales College, Mr. Bondy returned to Central in 1942 as coach of the lightweight and freshman football teams and the lightweight basketball team. In 1943 he became backfield coach on the varsity.

Mr. Bondy entered the service in 1944. This year he returned to take over the jobs of head basketball coach and Director of Athletics here at Central.

Don Smith

Mr. Smith hails from Norwalk, Ohio. He graduated from De Sales College, Toledo. Later served in the U. S. Army. After twenty-six months in service he was promoted to staff-sergeant. He received his discharge in November 1946.

Walter Zach

Mr. Zach came back to Central for his first year as an assistant coach. He graduated from Central in '39, and went to Dayton University where he also played football. Entering the army as a paratrooper in 1943, he remained in service until 1946.

Paul O'Rourke

Lightweight Freshman Coach

Mr. O'Rourke, also an alumnus of Central, graduated in '38. He went to Dayton immediately after graduation where he continued in athletics. He entered the army in 1943 and remained in service until 1946.

Team

The "Fighting Irish" once again completed the football season in the true and usual fashion, with success They upheld the prevailing spirit that "A quitter never wins and a winner never quits." Despite all discouraging reverses and injuries, and the loss of their head coach, the team snapped back to complete the season which was worthy of merit.

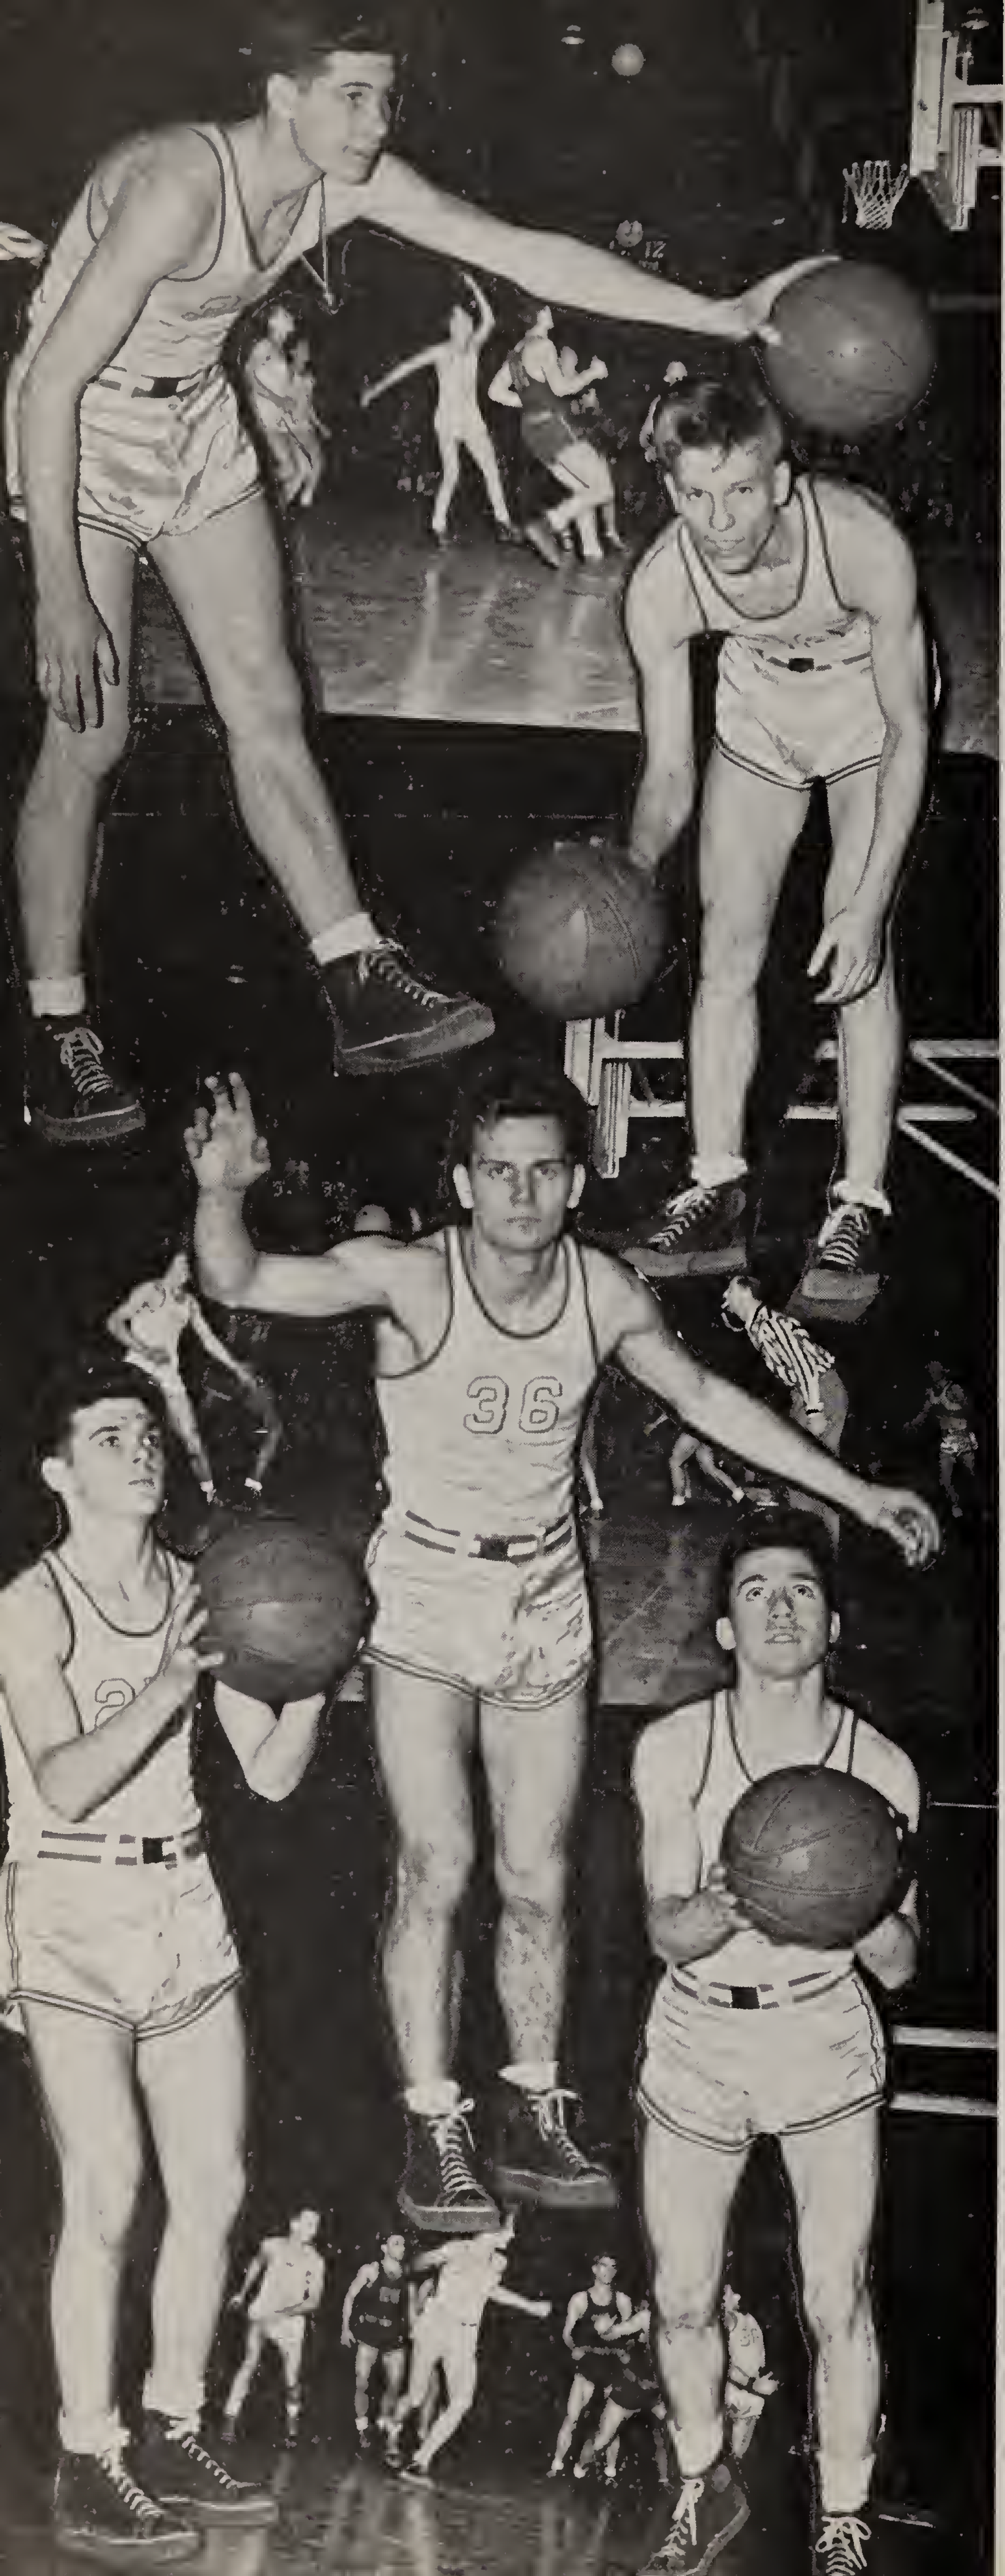
George Smith, Gerald McCloskey, Wade Beucler



Gerald McCloskey

"Gerry"

This lanky lad controlled the backboards on both defense and offense. He also was able to hit from any position on the floor. "See you next year, Gerry."

Richard Schmenk

"Dick"

Dick's "never say die" spirit will be missed on future Central quintets. This fleet-footed lad proved a great asset to the team.

Paul Serke

"Paul"

Playing the last year of basketball at Central this season, Paul has demonstrated the meaning of "fighting spirit" to many Toledo basketball fans. Nice going, Serk.

Richard Murnen

"Dick"

Dick's smooth style of ball handling was in our estimation unequaled during the 1946-47 season. His ability to keep cool was a big help in winning many games.

Frank Pinciotti

"Frankie"

This speedy guard played one of the flashiest games of basketball seen in Toledo this year. Frankie was a big factor in the success of the Irish five this season. Frankie was also voted most valuable player.

George Smith

"Smitty"

Smitty showed his metal as a varsity cager this year by his consistency in hitting from far out. This was his second year on the varsity team.

John Reilly

"Duke"

Duke's ability in feeding his shorter team mates, and controlling the backboards, kept the Irish well in the running this year.

Wade Beucler

"Wade"

Wade proved to be the sparkplug of the team this year, with his ability to drop in points when they are needed. This made him one of the most popular players on the team, and won him the title of honorary captain.

Thomas Kuebler

"Tom"

Tom's experience with the varsity this year should be of great assistance to the future varsity team. Tom is one of four varsity men returning next year.

Albert Marchal

"Tex"

Though he did not get into many games, the experience Al gained will be a valuable asset for next year's team.

Coach P. McCarty

BASEBALL

This spring brought troubles to the baseball schedule. With rain at try-outs, rain at practice, rain at the game, Mr. McCarty found the going tough. Up to this writing the Macomber - Central tilt was the only game played.

Teams to be met are Libbey, Woodward, DeVilbiss, Scott, Montclova and Flint.

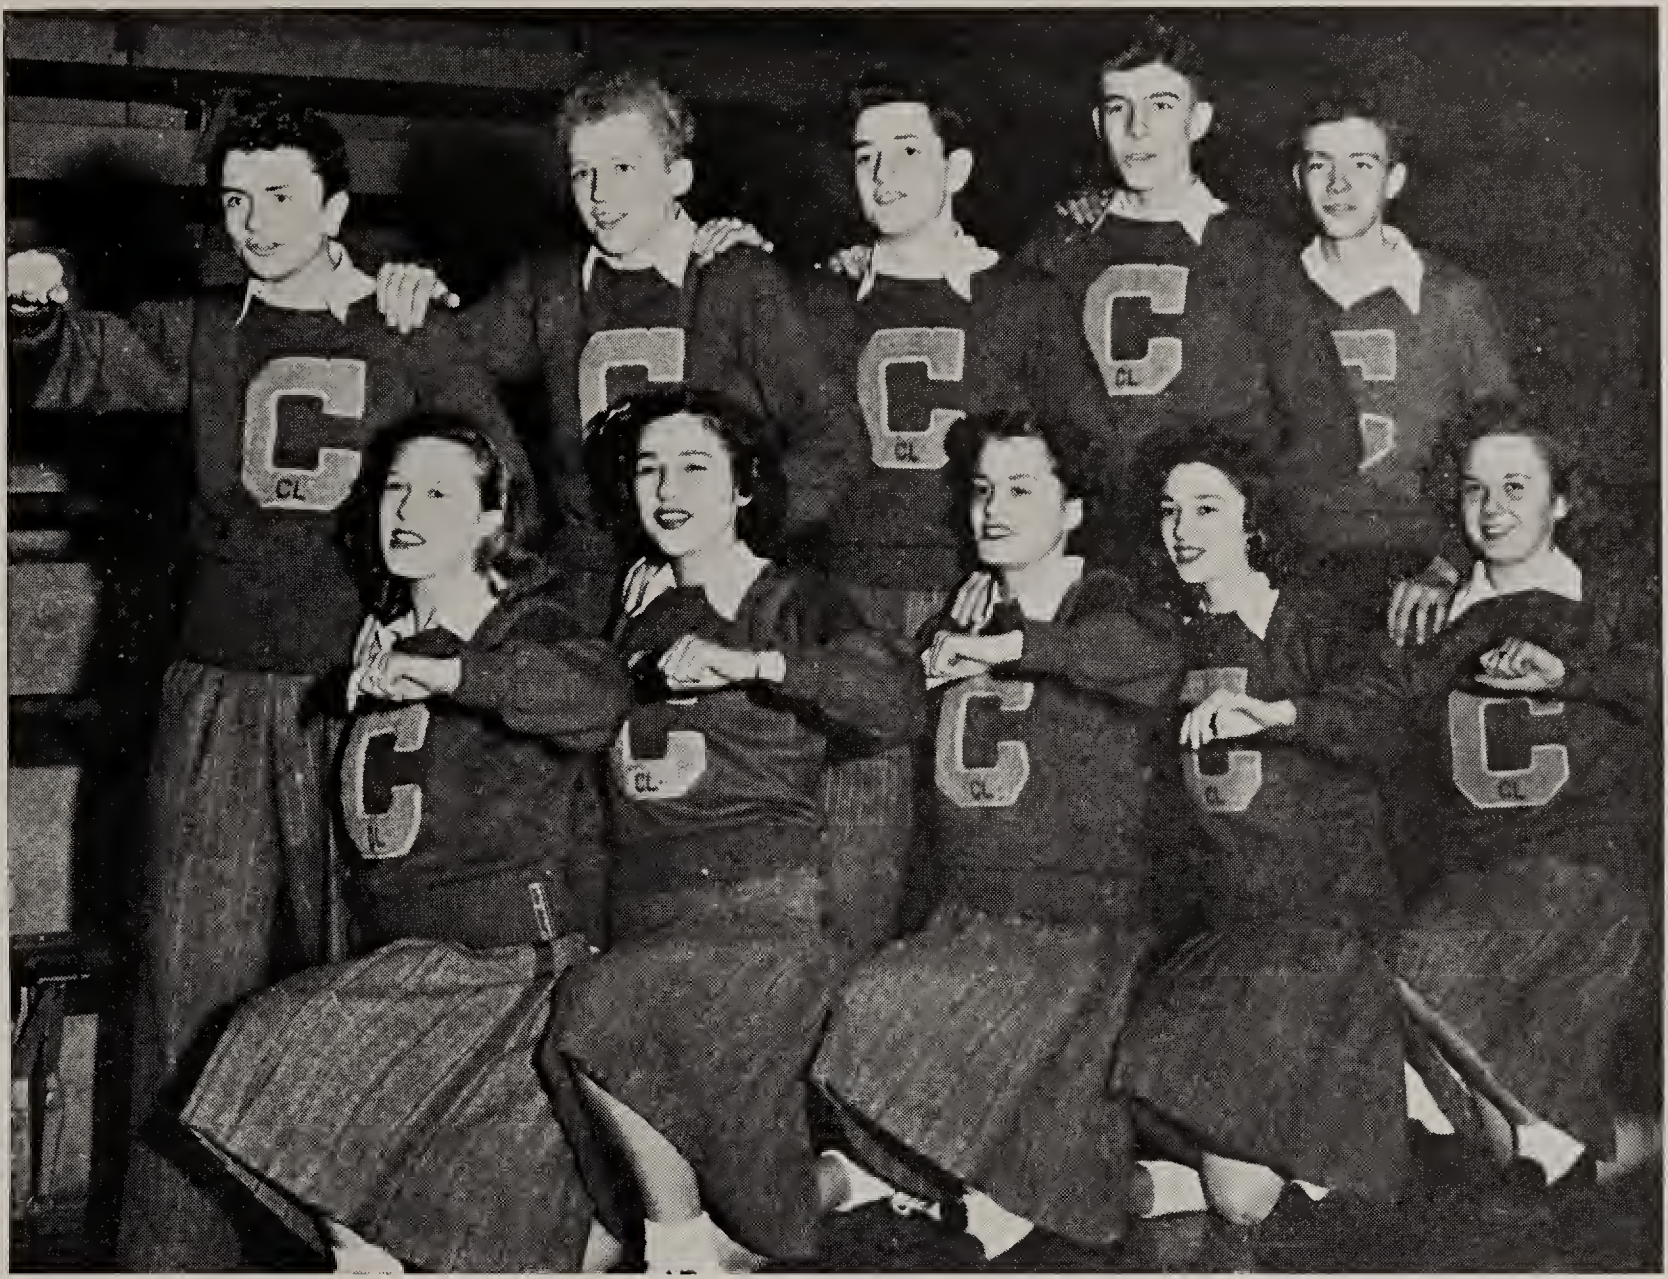
Row 1: M. Price, J. Brazzill, R. Jankowski, G. Corrigan.

Cheerleaders



Top row: Patrick McGeein, Francis Kramer, John Shovar (Captain), Frank O'Connor, Riley Moore.
Bottom: Lorraine Lewandowski, Betty Gulyas, Patricia Irving, Joanne LaPorte, Geraldine Keller.

Many changes were offered to the Central fans this year. The cheers were *new;* the uniforms were *new* and natty; the songs were *new;* the formations *new* and intricate, but climaxing all this was the *new* spirit which the cheerleaders instilled in the student body.

To these splendid boys and girls and to their *spirited* coach, Fr. Lynn, O.S.F.S., goes credit for a great part in the successful sports season.

Within a little space called the office, four young ladies, known as the Office Force, spend many hours doing "little services" for us. If it is a mark that must be taken care of, a phone call to be made, lock to be adjusted, or information for the school paper that must be verified, it is to them, in their inner sanctum that we instinctively turn for aid.

Memories of *Today*

. . . Posing . . . All quiet on Central's front . . . Smiles . . . Smiles again . . . A study in expression . . . One what, Kate? . . . Cross Country Chat . . . Too, too studious . . . What's the matter, John, cold? . . . More shivers and more smiles.

Yesterday

. . . Freshman Day . . . Were we only posing! . . . Band marches . . . Put it in Jerry! . . . Curious? . . . "We want a touchdown" . . . The jitterbugs jitter . . . The Spirit of '47 . . . "Cheer, cheer for old Central High" . . . It must be interesting.

Beginner's Luck

● The girl who starts in telephone work finds real beginner's luck.

She learns her job pleasantly with other beginners just like herself—possibly from her own school. She works in light, airy offices with the latest in equipment. She relaxes in beautiful lounges with friendly co-workers.

She takes home a good-sized weekly paycheck which she knows will increase steadily through scheduled raises. Her supervisors are congenial and understanding. They reached supervisory levels from beginning jobs just like hers. Promotions are made from within the ranks and today's greatly increased traffic has speeded up these promotions.

The telephone beginner strikes it lucky because she has chosen a company which earned its reputation for being "a good place to work".

MORE DAYLIGHT FOR BETTER SCHOOL WORK

●

Better seeing means faster learning. That's why progressive communities are planning schools with larger windows . . . windows that let daylight spread to every corner of the classroom, cutting out shadows, reducing glare by lessening contrast between outdoor and inside light, and making vision easier.

Today large daylighting windows are practical . . . for **Thermopane** solves the problem of excessive heat loss. This transparent insulating unit developed by Libbey·Owens·Ford is composed of two or more panes of glass separated by a dehydrated air space and hermetically sealed around the edges with L.O.F.'s **metal-to-glass** bond. The insulating efficiency of **Thermopane** has been time-proved in schools, hospitals, office buildings and homes in many climates.

LET'S MAKE IT A PARTY!

Whether it's a basket picnic, a trip to an athletic event, a sight-seeing tour, or a more formal occasion, when you charter a bus you permit everyone to enjoy the trip from the time you leave until you are all safely home.

Expensive? No, indeed. On the contrary you will find that compared with other forms of travel, chartered service is very reasonable.

For suggestions and quotations, call ADams 1241.
